Note: For explanation of column captions, see Introduction.

Standard Notes: - Represents zero. (D) Withheld to avoid disclosing figures for individual companies. (NA) Not available. (X) Not applicable.

• Represents expenditures during the year for both new and used plant and equipment.

• Represents gross shipments of the mineral indicated by the industry name less minerals transferred to other establishments for preparation or less minerals received from other establishments for preparation.

• Unless otherwise specified, includes figures for minerals produced and used in the same establishment in making manufactured products. The value of such products was estimated.

• Figures for cost of minerals received for preparation are included with those for cost of supplies, purchases for resale, and purchased fuels and electric

• Figures for such products of establishments classified in other industries are included with those for establishments classified in the specified industry.

• Includes figures for stone produced and used in the same establishment in making cement and lime. Excludes stone produced and used in the same establishment in making ready-mixed concrete and asphalt and tar paving mixtures and block.

• Includes figures for stone produced and used in the same establishment in making cement. Excludes stone produced and used in the same establishment in making ready-mixed concrete.

• Excludes figures for minerals produced and used in the same establishment.

• Includes figures for 1 nonproducing establishment in the metal mining industries.

• Includes figures for minerals produced and used in the same establishment in making manufactured products, except cement.

• Figures for shipments of primary products of establishments classified in other industries are included with those for establishments classified in the specified

• Includes figures for stone produced and used in the same establishment in making manufactured products. Excludes stone shipped in other mineral industries amounting to less than 25 percent of the totals shown.

• Includes figures for phosphate rock mined, washed, or concentrated in Pennsylvania, North Carolina, Arkansas, Louisiana, and Texas, amounting to less than 10 percent of this total.

• Includes figures for minerals produced and used in the same establishment in making manufactured products, except that so used in the mineral industries.

• Represents value of gross shipments. See also footnotes 5 and 8.

• No minerals were reported produced and used.

• Includes figures for minerals produced and used in the same establishment in making manufactured products, except such products used in making lime.

• Represents gross shipments. See also footnote 5.
